

<b>Name of subject:</b> <b>Lean and Green Printing</b>	<b>NEPTUN-code:</b> <b>RMTLGANVNC</b>
<b>Number of hours:</b> full time: 2 lectures <b>Credit: 2</b> <b>Requirement:</b> semester grade	<b>Pre-requisite:</b> none
<b>Responsible professor:</b> <b>Dr. Csaba Horváth</b>	<b>Name of faculty and institute:</b> Rejtő Sándor Faculty of Light Industry and Environmental Engineering Media Technology and Light Industry
<b>Evaluation and assessment procedures:</b>	
It is compulsory to attend the lectures. The rules of education and exam directory (TVSZ) are the guidelines.	
<b>Subject content:</b>	
The course is a primer that serves a dual role for today's students of graphic communication. It's an introduction to lean, a bridge to that world of abstract theories. It's also a first pass – a necessary first coat – that will provide a solid base for any printer who wants or needs to begin the journey of becoming lean and green enterprise.
